

# GUARDHAT PLATFORM

## Create an Industrial Internet of People.

People make, power, and move the world around us. People put themselves at risk to keep operations moving. People need better support. The Guardhat Platform covers last mile connectivity with your frontline workers. A worker-centric information highway where you select the integrations - data sources and data sharing - that make sense for your crews and company to gain unified and future-proofed visualization and reporting and real-time insights to improve operations.

Uncover and mitigate risk

Collaborate with your workforce – anywhere

Improve quality, productivity and ease of work

Ensure compliance

Gain rich data stream for optimization efforts

## Partners

Powered by, interoperable with and expanding integrations among world-class providers
